Professional Experience

Cogent Business Solutions Inc. (Sept 2024 – Present)

SEO Specialist / Senior Web Developer

Handle technical SEO issues including redirects, duplicate content, indexing, crawling, and structured data implementation. Develop and maintain Laravel and Vue.js applications while assisting with Linux VPS deployment, monitoring, server security, and troubleshooting. Optimize metadata, internal linking, and overall website SEO performance.

Focus Australia Migration Services (Aug 2024 – Jul 2025)

Senior Full Stack Developer / DevOps / Technical Support

Worked as a versatile professional handling Laravel and Vue.js development, Quasar frontend systems, Linux Ubuntu server administration, deployment workflows, advertising design, video editing, and digital marketing support. Managed SSL, DNS, VPS security, and production deployments.

Groundlink Digital Services (Jul 2023 – Jul 2024)

Full Stack Programmer

Developed casino systems and websites using Laravel, Vue.js, and CodeIgniter. Worked with MariaDB databases, Ubuntu Linux servers, deployments, APIs, responsive interfaces, and system troubleshooting.

JR Creatives (Feb 2023 – Jun 2023)

Graphic Designer and Logo Artist

Created logos, branding materials, posters, packaging designs, and social media graphics using Adobe Photoshop and Illustrator. Collaborated with clients to create visually consistent and brand-aligned designs.

KGB Conduit Company (Oct 2019 – Dec 2019)

HR Assistant / Encoder (OJT)

Assisted the HR department by managing confidential employee records, organizing filing systems, encoding data accurately, and supporting administrative operations.

Web Dev Freelance (2017 – 2026)

Programmer and Graphic Designer

Handled freelance projects involving logo design, branding, frontend/backend development, inventory systems, server management, client communication, troubleshooting, and deployment support through direct clients and Upwork.

SEO Expertise

Experienced in Technical SEO including indexing, crawling, structured data (JSON-LD), metadata optimization, redirect management (301/302), duplicate content resolution, and crawl optimization. Proficient with SEMrush, Google Search Console, and Google Workspace for SEO reporting, keyword research, performance monitoring, and competitor analysis.

Server & DevOps Experience

Experienced in Ubuntu Linux server management, Nginx configuration, SSL installation using Certbot, DNS management, firewall security using UFW and iptables, deployment automation, Git workflows, and maintaining development, staging, and production environments.

Education

Bachelor of Science in Information Technology

Asia Technological School of Science and Arts (2019 – 2023)
