WORK EXPERIENCE

AUG 2024 TO JULY 2025

Focus Australia Migration Services

NAME OF SEO : Mr. Roy Nicomedes

PHILIPPINE ADDRESS : Blk 132 Lot 21 Egeria St. St Apolonia, Deca Homes, Loma De Gato Marilao Bulacan.

AUSTRALIA ADDRESS : 34 Fridayhill Drive, Southern River WA 6110, Australia

EMAIL : focus@focusaustralia.com.au / migration@focusaustralia.com.au

JOB DESCRIPTION:

I work as a versatile professional in the company, handling roles as a DevOps engineer, Full Stack and Front-End Web Developer, Technical Support, Editor, and Advertiser. I develop and maintain web applications using Laravel, Vue.js, and the Quasar Framework, while also managing the setup and administration of Linux Ubuntu VPS servers, including server configuration, deployment, and security. In addition to my development work, I create visual and video content for advertising using Adobe Photoshop, Illustrator, After Effects, and Premiere Pro, and I support the team with technical troubleshooting and digital marketing strategies.

JULY 2023 TO JULY 2024

Groundlink Digital Services

NAME OF SEO : Mr. Decastro Anthony

ADDRESS : 14f IBM Plaza, Eastwood, Quezon City

EMAIL : info@groundlinkadvertising.com

JOB DESCRIPTION:

In my previous company, I worked as a Full Stack Programmer, handling both front-end and back-end development for a casino system and website. I gained hands-on experience using Laravel, Vue.js, and Codelgniter, and managed databases using MariaDB. I also learned how to set up and maintain Ubuntu Linux servers, apply basic cybersecurity practices, and perform deployment and troubleshooting tasks. My role involved building responsive user interfaces, developing APIs, and ensuring system stability and security. This experience laid a strong foundation for my skills in web development, DevOps, and server administration.

FEB 2023 TO JUNE 2023

JR Creatives

POSITION: Logo Artist and Graphic Designer

NAME OF SUPERVISOR : Mr. Gamiao James

ADDRESS : Montana St, San Mateo, Rodriguez, Rizal.

EMAIL : jrcreativesphilippines@gmail.com

JOB DESCRIPTION:

In my previous role as a Logo Designer and Graphic Artist, I was responsible for creating visually impactful and brand-aligned logos for various businesses and projects. I also developed cohesive design templates such as business cards, icons, product packaging, and other marketing materials. My work involved conceptualizing original ideas, ensuring visual consistency across all branding elements, and delivering print-ready and digital assets using tools like Adobe Photoshop, Illustrator, and other creative software. I collaborated closely with clients or teams to align designs with brand identity and target audience.

JAVASCRIPT FRAMEWORKS

Full Stack Developer | Project Involving Vue.js
Responsibilities:

Developed interactive user interfaces using Vue.js.
Implemented event listeners to enhance user experience.
Integrated frontend components with backend APIs to manage data efficiently.
Key Achievements:

Event Listener Implementation:

Utilized Vue.js to create dynamic event listeners, enhancing interactivity and responsiveness of the application.
Example: Developed a feature to listen for button clicks to trigger specific actions, improving user engagement and functionality.
Backend API Integration:

Seamlessly integrated Vue.js components with RESTful APIs.
Example: Implemented API calls to fetch and display user data, ensuring real-time data synchronization and efficient data handling.
Utilized Axios for making HTTP requests and managed state with Vuex to handle the application's state.
Technical Skills:

Proficient in Vue.js, JavaScript, and modern front-end development practices.
Experience with backend technologies (Laravel, Node.js, etc.) and RESTful API development.
Strong understanding of asynchronous programming and event-driven architecture.

CSS DESIGN AND FRAMEWORKS

Full Stack Developer | Project Involving CSS, SCSS, Bootstrap, Tailwind CSS, Quasar, and Animations
Responsibilities:

Developed and styled web applications using CSS, SCSS, Bootstrap, Tailwind CSS, and Quasar.
Created dynamic and responsive layouts to enhance user experience.
Implemented animations to improve interactivity and visual appeal.
Key Achievements:

CSS and SCSS Development:

Utilized CSS and SCSS to create maintainable and scalable stylesheets.
Example: Developed custom SCSS variables and mixins to streamline styling across the application, ensuring consistency and reusability.
Bootstrap and Tailwind CSS Integration:

Integrated Bootstrap and Tailwind CSS frameworks to accelerate development and ensure responsive design.
Example: Used Bootstrap's grid system and Tailwind's utility-first classes to create a flexible and adaptive layout, reducing development time and enhancing mobile responsiveness.
Quasar Framework Utilization:

Employed Quasar to build high-performance, responsive web applications with a rich user interface.
Example: Leveraged Quasar components and utilities to rapidly develop complex UIs with minimal effort, ensuring a consistent and polished user experience.
Animation Implementation:

LARAVEL, CODEIGNITER, PHP

Backend Developer | Project Involving Laravel, CodeIgniter, and Raw/Older Versions of PHP
Responsibilities:

Developed backend services and APIs using Laravel, CodeIgniter, and raw/older versions of PHP.
Designed and implemented database schemas and relationships.
Integrated frontend and backend systems seamlessly.
Maintained and optimized legacy PHP codebases.
Key Achievements:

Laravel Development:

Built scalable backend systems and efficient database schemas using Eloquent ORM.
Developed RESTful APIs for data management and business logic.
Implemented authentication and authorization mechanisms.
Utilized Laravel's queue system for background jobs.

CodeIgniter Development:

Created RESTful APIs for efficient data handling.
Designed and implemented MVC architecture.
Integrated third-party services and APIs.
Leveraged CodeIgniter's libraries for rapid development.
Raw/Older PHP Development:

Optimized legacy PHP systems and improved performance.
Enhanced security in older PHP codebases.
Developed custom scripts for specific business logic.
Ensured backward compatibility while integrating new features.
Technical Skills:

Proficient in Laravel and CodeIgniter frameworks.
Extensive experience with raw and older versions of PHP.
Strong understanding of RESTful API development and integration.
Skilled in database design, optimization, and management.
Knowledgeable in web application security best practices.

SKILLS

SERVER SETUP

LINUX COMMAND LINE, GIT, AND UBUNTU

Server Setup and Configuration Specialist

Responsibilities:

Deployed and managed Ubuntu Linux servers for development, staging, and production environments.

Set up and maintained test servers, staging servers, and live production servers, ensuring seamless transitions between development phases.

Oversee the configuration and maintenance of live databases, with careful attention to data security, integrity, and performance.

Configured Nginx as a web server and reverse proxy for optimized performance and load management.

Managed firewall rules using UFW and iptables to secure server access and services.

Installed and configured SSL certificates using Certbot (Let's Encrypt) for HTTPS support.

Set up and managed DNS configurations for domains and subdomains, including A, CNAME, MX, and TXT records.

Collaborated with developers and QA teams to ensure server environments met application requirements and deployment standards.

Monitored server performance, conducted regular system updates, and implemented security hardening.

GRAPHIC DESIGNER

ADOBE GRAPHIC SOFTWARES

Graphic Designer | Proficient in Photoshop and Illustrator

Responsibilities:

Creating visually appealing designs and logos using Photoshop and Illustrator.

Collaborating with clients to understand their design needs and requirements.

Incorporating feedback to refine designs and achieve client satisfaction.

Ensuring designs are aligned with brand guidelines and specifications.

Key Achievements:

Photoshop Expertise:

Utilized Photoshop to create high-quality graphics, illustrations, and designs.

Example: Designed marketing materials such as banners, flyers, and posters for promotional campaigns.

Illustrator Proficiency:

Created vector graphics and illustrations using Illustrator.

Example: Developed logos and branding materials that effectively represented client brands.

Client Collaboration:

Worked closely with clients to translate their ideas into visual concepts.

Incorporated client feedback to refine designs and meet project requirements.

Brand Consistency:

Ensured all designs adhered to brand guidelines and maintained brand consistency.

Produced designs that resonated with target audiences and effectively conveyed brand messages.

Technical Skills:

Proficient in Adobe Photoshop for graphic design and image editing.

Experienced in Adobe Illustrator for vector graphics and illustration.

Strong understanding of design principles and techniques.

Skilled in collaborating with clients to understand their design needs.

Knowledgeable in creating designs that align with brand guidelines and specifications.

Data Analyst

Comprehensive Reporting: MS Office, Programmable Web Apps

Project Manager & Quality Assurance (QA)

Penetration Testing: Systems, Websites

Tools: Trello, ClickUp

WORK EXPERIENCE

OCT 2019 TO DEC 2019

KGB Conduit Company

POSITION: HR Assistant

ADDRESS : Nuvali, Santa Rosa City, Laguna (OJT).

NAME OF SUPERVISOR : Mrs. Jaya Jao

Tel No. (02) 756 7567

JOB DESCRIPTION:

During my On-the-Job Training (OJT), I served as an HR Assistant and Encoder, where I was entrusted with managing and organizing confidential hard copy documents such as employee records, contracts, and other sensitive HR files. I assisted in maintaining filing systems, performed accurate data encoding, and supported the HR team with various administrative tasks. My responsibilities included preparing documents, ensuring proper documentation protocols were followed, and providing general support to HR officers as needed.

FREELANCING

MARCH 2017 TO PRESENT

Freelancer on Upwork, Facebook etc.

POSITION: Programmer and Graphic Artist.

JOB DESCRIPTION:

I have been a freelancer since 2018, specializing in logo design and graphic design. In 2019, I launched my own portfolio website to showcase my creative work. This allowed me to take on a variety of projects such as logos, posters, T-shirt designs, branding kits, and other visual assets aligned with client needs. My freelance journey not only sharpened my design skills but also taught me how to manage clients, time, and project expectations effectively.

By 2021, I began expanding my services to include photography, videography, and robotics-related projects, along with the development of web applications. I also accepted school system projects where I was responsible for both frontend and backend development—applying my skills build functional and user-friendly systems.

In 2023, I joined JR Creatives as an On-the-Job Trainee, where I contributed to several real-world design projects. I created multiple logos for different clients and learned to adapt to the dynamics of a corporate environment. This experience gave me valuable insight into the differences between freelance work and full-time employment, especially in terms of communication, collaboration, and deadlines.

Additionally, I assisted in our family business, which includes a cellphone repair shop and a lotto outlet since 2013. This involvement exposed me to the day-to-day operations of running a small business—dealing with technical concerns, handling customer relations, and managing risks. Interacting with a wide range of customers helped build my confidence, problem-solving skills, and professional communication.

Altogether, my journey has equipped me with a diverse skill set across design, development, and business operations, making me adaptable to both creative and technical roles.
